

Outreach & data services

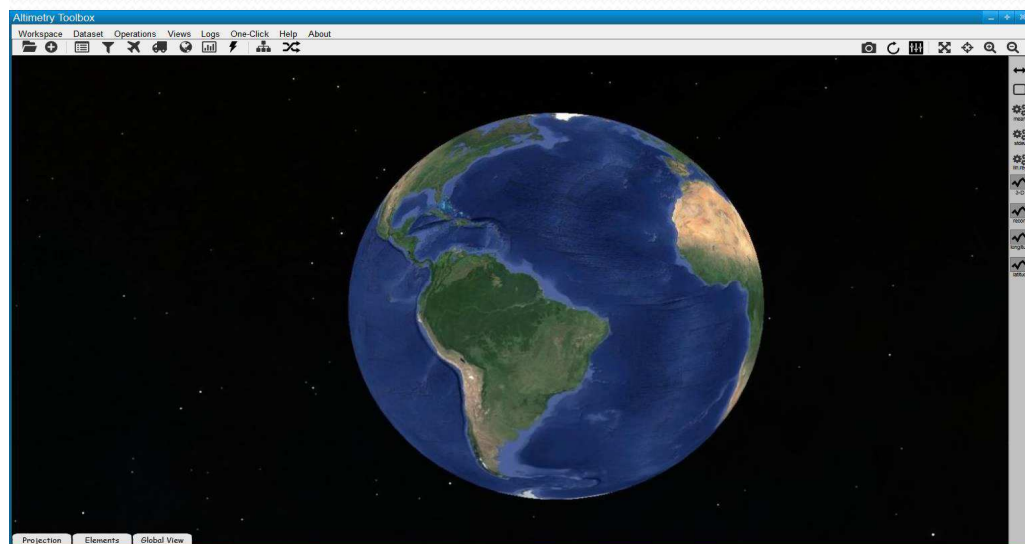

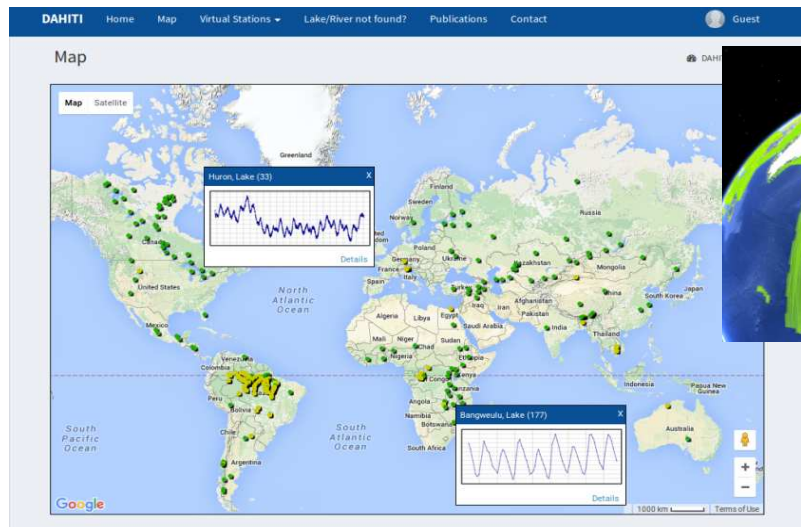

In summary

- Data Services: 4 presentations, 3 showcase, 8 Posters
- Outreach: 2 presentations, 3 showcases, 2 Posters
- The short format of the “outreach showcases” went quite well
- About 40 attendees

Data services

- Some new products distributed
 - Upated/upgraded services (online, interactive including web services) to distribute them
 - Upgraded tools
 - Discussion : more and more data available all around
BUT : what are each of them is good for?
- ➔ Need of a user guidance about the best product for his/her use

Outreach

- Jason-3 / Sentinel-3 launch scheduled soon
- COP21 Climate conference in Dec. 2015
- El Niño brewing
- preparing for those launches
AND the climate conference
+ El Niño
- Storm surges another subject with potential public impact
- Hands-on experiments very often a successful way of
outreaching
- Web site accessibility to be taken into account

MISSIONS

Precise satellite altimetry, orbit determination and location missions have transformed the way we view Earth and its oceans. Highly accurate altimetry measurements from

Credits Cnes/CLS

Topex/Poseidon and Jason made possible by the Doris system give us the ability observe sea surface height systematically.

ARGONAUTICA DATA

Search period:
 Start: 11/16/2004 End: 10/20/2015
 Select the full period of data

Filter the beacons you want to track:

Names:

- Aquila (king penguin)
- Aurélien (emperor penguin)
- Bain (king penguin)
- Bibi (king penguin)
- Blizzard (king penguin)
- Butler (king penguin)
- Buzz (king penguin)
- Calamanchot (king penguin)
- Catin (king penguin)
- Cannette (king penguin)
- César (emperor penguin)
- Charles (king penguin)

Jason-2

Recommendations / perspectives

- A number of resources (figures, maps, movies, animations, schemes...) available
 - On the web e.g.
www.aviso.altimetry.fr/gallery , sealevel.jpl.nasa.gov/gallery/
 - On our computers / databases
- don't hesitate to ask for general material or a specific theme / figure
(at worst, we can think about having it made for future uses)
- If you have “hands-on” activities, try to write a rough description to share it (and/or send a movie?)

Recommendations / perspectives

- Prepare to talk about climate, climate and climate... (and Jason-3)
 - ➔ preparing for the launches, El Niño and the climate conference.
- Plan for mobile/simple interfaces/navigation for web sites, at least as alternate possibility; consult with an accessibility expert
- Jason-CS, SWOT outreach AND data services to be prepared

OSTST posters on the web

- A complete overview of what was shown during this meeting
- An archive of past meetings (from 1998)
- **UPLOAD** them in pdf on <http://meetings.aviso.altimetry.fr> using the account created to submit abstracts.
(you can also upload your presentations)
- Your posters available online at this address
